

# MAPPING THE RISK

FLOOD MAP MODERNIZATION

## Notice of Public Open Houses March 30<sup>th</sup>, 31<sup>st</sup>, & April 1<sup>st</sup>, 2010: Erie County, New York Map Modernization and the National Flood Insurance Program

The New York State Department of Environmental Conservation (NYSDEC) and the Federal Emergency Management Agency (FEMA) will be holding three Public Open House Meetings on March 30<sup>th</sup>, March 31<sup>st</sup> and April 1<sup>st</sup>, 2010 to discuss the new Erie County Digital Flood Insurance Rate Map, and the National Flood Insurance Program (NFIP) in general. If you have questions about the preliminary DFIRM, please visit <http://rampp-team.com> or contact Paul Weberg at (212) 680-3638 or [paul.weberg@dhs.gov](mailto:paul.weberg@dhs.gov). If you have questions about the NFIP, floodplain management or flood insurance, please contact Melissa Ryan at (212) 680-3625 or [melissa.ryan@dhs.gov](mailto:melissa.ryan@dhs.gov). The NYSDEC floodplain management section, at (518)402-8151, can answer questions about both the map and the NFIP in general.

**Map Modernization: What is it?** The local Map Modernization project is part of a nationwide effort to update the country's flood hazard maps so that they reflect the most current flood risks. Erie County residents and businesses now have up-to-date, reliable, Internet-accessible information about their flood risk on a property-by-property basis.

**How are residents and businesses affected?** FEMA has developed a website to help Erie County property owners view the change in flood hazard designation. The website, which will be available in March 2010, is located at <http://www.rampp-team.com/ny.htm>

**Why Update the Maps? Why Now?** Flood hazard maps, also known as Flood Insurance Rate Maps, are important tools in the effort to protect lives and properties. Over time, water flow and drainage patterns have changed dramatically due to surface erosion, land use and natural forces.

**New Maps = A Safer Public** By showing the extent to which areas are at risk for flooding, the new flood maps will help home and business owners understand their current flood risk and make more informed decisions about protecting their property. These maps will also allow community planners, local officials, engineers, builders and others to make important determinations about where and how new structures and developments should be built to maximize safety.

### TIMES & LOCATIONS:

*Tuesday, March 30*  
*Stop in anytime between*  
*4:00-8:00PM*  
Old First Ward Community  
Center Gymnasium  
62 Republic Street  
Buffalo, NY 14204

*Wednesday, March 31*  
*Stop in anytime between*  
*4:00-8:00PM*  
Town of Clarence  
Town Park Clubhouse  
10405 Main Street  
Clarence, NY 14031

*Thursday, April 1*  
*Stop in anytime between*  
*4:00-8:00PM*  
Village of East Aurora  
Boys and Girls Club  
24 Paine Street  
East Aurora, NY 14052  
(Use the Savage Place Entrance)
